Your FERTILITY ADVOCATE

Why are you interested in being a surrogate? I have always had a strong interest in becoming a surrogate. The idea of helping a family create the life they've always dreamed of is truly fulfilling to me. While I absolutely love being pregnant, my husband and I have decided that we are not having any more children

of our own. However, we both wholeheartedly embrace the possibility of me becoming a surrogate, as it aligns with our desire to support others in their journey to parenthood.

Covid Vaccination Status: I am fully vaccinated.

Pregnancy #1 – Delivered March 7th, 2011 at full term, C-section (breech baby), baby born 6lbs 13oz, perfectly healthy

Pregnancy #2 – Delivered April 25th, 2018 at full term, planned C-section, baby born 6lbs 7oz, perfectly healthy

If the parents requested it, under what circumstances would you agree to terminate a surrogacy pregnancy? I feel this would be the parent's decision and I would respect their choice. I would agree to terminate if there was something wrong with the baby such as a genetic, physical, or physiological abnormality, and/or if the doctor advises it.

Do you have health insurance? If so, who is the provider. Yes, United Healthcare, which will need to have

it double checked to be sure that it's surrogacy friendly. If it's not, the parents I match with will need to purchase a plan we can use. (Agency will help with this).

What does your daily routine consist of? My daily routine begins at 7am when I prepare lunch for both my daughters before they head to school with my husband. Once they are on their way, I start my work-from home job, typically from 8am-5pm. After work I do pilates classes from home as I recently bought a reformer. In the evenings I prepare dinner while my husband helps our girls with homework. After dinner, we tidy up before settling in for bedtime.

What does your support system consist of? My husband is my greatest source of support. He is incredibly helpful and super hands on with our girls. I know I can count on him for everything and anything. Additionally, I am very close to my family, especially my mother, who lives in California but is always willing to make the trip to Arizona to lend a hand.

How many babies are you willing to carry for this surrogacy journey? Single embryo transfer, please, but if
