**Why are you interested in being a surrogate?** For almost 5 years now I have had a tug on my heart to do surrogacy. After becoming a mom myself, I wanted to help bring that blessing to a deserving family. I enjoy

pregnancy and giving birth, and we are not looking to grow our own family at this time, so surrogacy seems like a wonderful fit at this time in my life.

**What does your daily routine consist of?** We wake up, have breakfast, homeschool, spend time outside, have lunch and do quiet time and then do sports in the evening. My kids do jiu-jitsu, gymnastics and dance! After sports we do dinner and bath time!

**Covid Vaccination Status:** I am not vaccinated and looking to match with someone comfortable with that choice.

- **Pregnancy #2** – Delivered 04/27/2019, vaginal delivery, baby born 5lb14oz, healthy.
- **Pregnancy #3** – Delivered 10/23/2020, vaginal delivery, baby born 6lb2oz, healthy.
- **Pregnancy #4** – Delivered 08/24/2024, vaginal delivery, baby born 7lb11oz, healthy.

**Have any children you birthed ever had any diagnosed medical condition? If yes, please explain:** One child had hydronephrosis diagnosed at 20 weeks' gestation but grew out of it by age 1.

**Have you had any other pregnancies that ended in miscarriage, stillbirth or abortion?** Yes, I've had a few early chemical pregnancies related to getting pregnant while on birth control or shortly after removing birth control.

**If the parents requested it, under what circumstances would you agree to terminate a surrogacy pregnancy?** I am pro-life and looking to match with someone like minded who would only consider termination under severe life and death medical circumstances threatening to myself or the baby. I prefer to match with parents who have tested embryos just to reduce the chances of a medical issue arising.

**Do you have health insurance? If so, who is the provider:** I don't have surrogacy friendly insurance so the parents I match with will need to purchase a plan we can use. (Agency will help with this).

**What does your support system consist of?** My husband is a rancher and stay-at-home dad so he is 100% hands on with the children and household management!

**How many babies are you willing to carry for this surrogacy journey?** Single embryo transfer only please,

but if it splits into twins, I would still be willing to carry both.

**What does your family do for fun?** Spend time outdoors! Whether it's playing in our yard, going to the lake, camping or traveling to the beach. I also enjoy thrifting and finding hidden gems that others may have overlooked.

**Please describe your diet:** Mostly whole foods! Lots of meat, potatoes, fruit, veggies here and there, and pasta a few times a week.

**Favorite flower?** I prefer plants! 🌱

**How often do you exercise?** A few times a week! Usually walking or 30-minute at home workouts.

**What is your favorite way to relax?** Epsom salt baths

**What is your favorite type of jewelry?** Necklaces

**Favorite dessert, candy or snack food?** Snickerdoodles

**Favorite TV show or movie?** Friends

**Age:** 26 **Weight:** 150 **Height:** 5'5" **BMI:** 25

**Date of Birth:** 04/28/1998

**Is there anything else you would like to add:** Yes, even though my last pregnancy was a home birth, I am 100% ok and on board with a hospital birth if that is what the Intended Parents prefer!
